

Town of Holliston Permitting Guide 2019

TOWN OF HOLLISTON
ECONOMIC DEVELOPMENT COMMITTEE
703 Washington Street
Holliston, MA 01746
(508)429-0635

Welcome!

Holliston welcomes economic development. Your new, expanding or relocating business is important to our community. Holliston is home to over 500 businesses and 6000 jobs, from home-based entrepreneurs to multi-national corporations. The following guide is designed as a reference to help business owners and developers as well as residents through Holliston's land use permitting processes. We encourage you to ask as many questions as needed.

Town Planner Karen Sherman has been designated as Holliston's Economic Development Director. She works with the Economic Development Committee to facilitate projects and develop tools to aid businesses. Karen has over 25 years of municipal planning experience in Massachusetts communities. In addition to staffing the Planning Board and Zoning Board of Appeals, she can answer general land use questions and facilitate interdepartmental meetings. Our entire land use staff is dedicated to providing excellent customer service. Departmental contact information, hours and resources are provided in this guide.

Holliston's zoning and other land use regulations often require applicants to seek permits from multiple boards and commissions. The purpose of this document is providing explanation of the "typical" process for our boards, commissions, and departments and to introduce you to them. This guide is not intended to cover every situation that occurs, but rather to provide general information on a majority of applications. If a project appears to need to go to multiple boards or commissions, the applicant should consult with staff on the permitting requirements and the best order of scheduling. Most application forms are located on the individual department, Board or Commission page of the Town's website, located at www.townofholliston.us. Applicants are urged to meet with staff for the relevant boards and commissions ahead of the filing deadlines to assure that all submission requirements have been met.

The more research you do in the early planning stage of your project, the easier it will be to meet the approval requirements of the Town. This increases the likelihood that your project will be accepted and reduces your risk of having to make significant and expensive changes later. The Economic Development Committee meets monthly and is also available as a resource to you. We encourage you to visit the EDC website - <http://hollistonedc.com/> - as it provides comprehensive resources to assist those doing business in the community.

Jeff Ritter
Town Administrator

Peter Barbieri, Esq.
Economic Development Committee Chairman

TOWN OF HOLLISTON

LAND USE PERMITTING GUIDE

Step One: Make Preliminary Contact for Advice from Town Staff

As soon as you know the location, use(s), and approximate size of your project, schedule free, informal reviews with the Town staff in the land use departments which include Planning and Zoning, Building, Health, and Conservation. Staff will explain to you which permits you may need, approximately how long it will take to get them, and whether any public hearings are required. They will also advise you if your initial design proposals are likely to be approved, and if not, what changes you may need to make in order to meet local standards. Our land use departments are conveniently located in the basement level of Town Hall.

When seeking preliminary informal advice, these are the Town departments you should visit:

REAR BASEMENT

Building Department

The Building Department administers the State Building Code and issues building, plumbing & gas, electrical, sheet metal, occupancy, and sign permits. In Holliston, the Zoning Bylaw is enforced by the Zoning Enforcement Officer who is the Inspector of Buildings (aka Building Inspector).

Information available: Plot plans, building plans, Zoning Bylaws & Maps, and parcel zoning history.

Planning Office

The Planning Office evaluates development proposals and assesses their impacts on the environment, transportation system, and town character. The Planning Office also coordinates staff review and the permitting process for new development proposals. The Town Planner/Economic Development Director is your contact throughout the development process for Site Plan Reviews, Special Permits and Variances, whether from the Planning Board or Zoning Board of Appeals.

- Planning Board. This 5-member elected board has jurisdiction under the Zoning Bylaws, the Subdivision Control Law and the Scenic Road Act as well as town regulations for Site Plan Review, Common Driveways, Inclusionary Housing, and Land Disturbance/Stormwater Management Permits. If your project trips a threshold for Site Plan Review (i.e. all new commercial construction) and requires a Special Permit, the Planning Board would likely be your one-stop permitting authority under zoning.

- Zoning Board of Appeals. This 3-member appointed quasi-judicial authority has jurisdiction under the Zoning Bylaws to issue Special Permits, Dimensional and Use Variances, rule on appeals of decisions made by the Inspector of Buildings (i.e. zoning interpretations), as well as issue Comprehensive Permits for affordable housing under MGL, c. 40B.

Information available: Zoning Bylaws and Maps, application packages, Planning Board Regulations (including subdivision, site plan review, scenic road, common driveway, inclusionary housing, and stormwater management & land disturbance regulations), and parcel zoning history.

FRONT BASEMENT

Conservation Commission Office

The Conservation Commission administers the Massachusetts Wetlands Protection Act and the Town of Holliston Wetlands Protection Bylaw, including related State and local regulations. The Conservation Agent can advise you if your project falls under their jurisdiction and whether you need to obtain local, state, or federal permits. Do not bypass this step since the presence of wetland resource areas on or near your property are not always immediately apparent.

Information available: Wetland maps, instructions for filing to determine the extent of wetlands and to do work in or around wetlands and waterways.

Health Department

The Board of Health enforces State sanitary and environmental codes and local health regulations. Among the many permits and certificates it issues are those for septic systems, hazardous materials, restaurants, food and tobacco retailers, summer camps, and public/semi-public swimming pools. From the size and proposed uses of your project, Health Department staff can estimate your project's sanitation needs. They will explain the procedures for obtaining septic system and other permits and approvals. Use the Health Department's available records of soils tests to help determine your site's suitability for septic disposal. This information may save you time and money.

Information available: Plot plans, septic and well plans, soil testing, food and tobacco permits and regulations.

Step Two: Obtaining Other Regulations, Maps and Materials:

You can obtain this information at the following other Town offices (Locations in parentheses):

Town Clerk (1st floor of Town Hall): Business Certificates*, Zoning Bylaws and Maps, Planning Board Regulations, and Local Bylaws, including Wetlands Bylaw and Demolition Delay provisions.

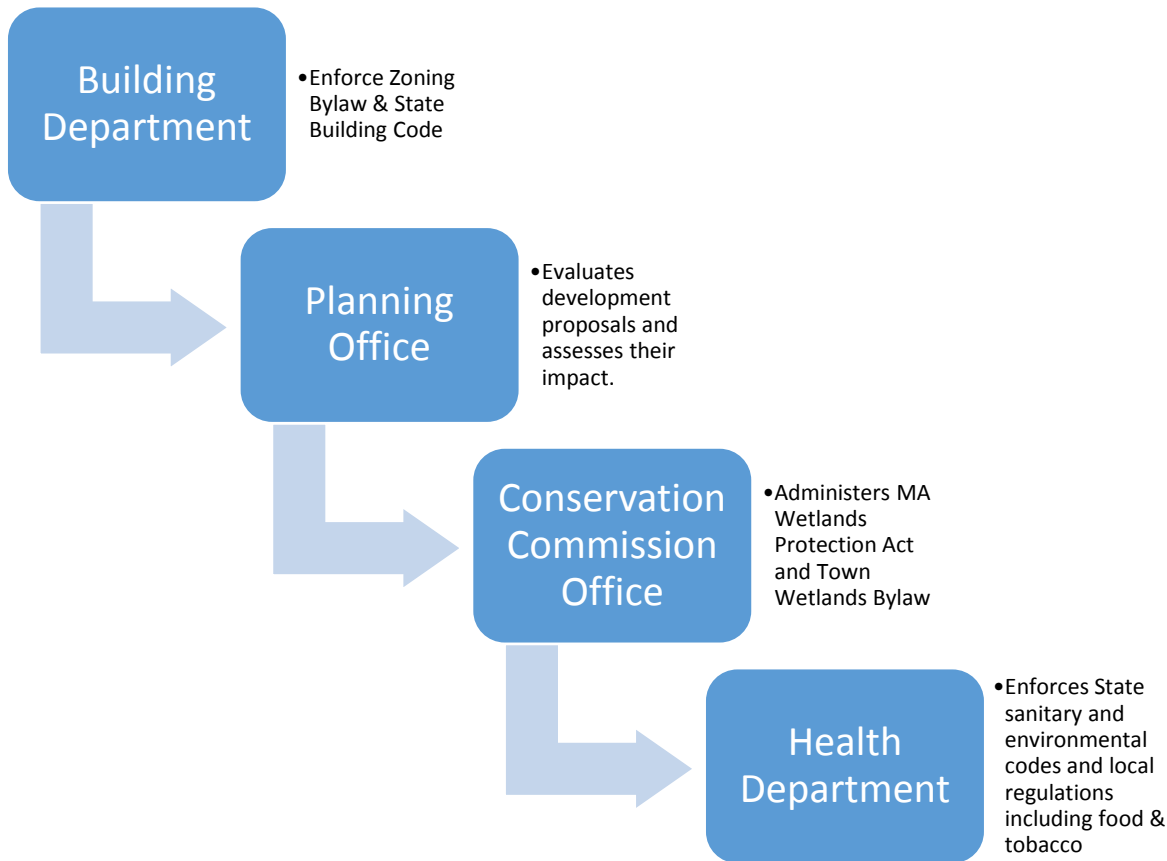

Assessor (1st floor of Town Hall): Assessor's Map Atlas, deeds, and Chapter 61, 61a & b information (i.e. farm, forest and recreation lands).

Board of Selectmen (1st Floor of Town Hall): License applications (e.g. car dealers, alcohol permits for events as well as vendors), pole hearing information, streetlight requests, trash collection, and roadway acceptances.

Department of Public Works Highway Department (63 Arch Street): Curb-cut regulations and street plans. The removal of street trees requires a permit from the Tree Warden and may also require a Scenic Road Permit from the Planning Board. See the Town Planner or Highway Superintendent for guidance.

*Business Certificates. Most business owners need a Business Certificate or doing Business As (aka d/b/a) in order to open a commercial bank account and protect business names unless you are a registered corporation in the Commonwealth or elsewhere. If you are running a business out of your home, you will also need to speak with the Inspector of Buildings regarding limitations under the Zoning By-Laws.

Holliston Land Use Departments

Other departments you may need to visit include:

- **Department of Public Works**
 - Highway Division
 - Roads, curb cuts and
 - Tree Warden
 - Water Department
 - Location of water mains
 - Water connections
- **Town Clerk**
 - Business Certificates
<http://www.townofholliston.us/town-clerk/files/business-certificate>
 - Copies of regulations and bylaws
- **Assessor**
 - Deeds and Chapter 61/61A information
 - Abutter's List Application
https://www.townofholliston.us/sites/hollistonma/files/file/file/abutter_certification_request_application.pdf
